### **1. Bids/Purchasing**

- a. Davis Court and First Street Utility Upgrades – Engineering – Lou Silver  
\$515,112

Questions were raised regarding whether or not this project was directly tied to the planned Bangor Housing Development and whether or not Bangor Housing would be contributing. These questions were addressed at the Council Meeting later that evening. Both the Water District and the City had this project as a priority for replacement/upgrade and separation. The planned development did result in the work being undertaken now for timing purposes. Bangor Housing is being requested to contribute a share based on the estimated increase of their development.

Motion made and seconded to recommend awarding contracting to full Council. Motion passed unanimously.
