

MEMORANDUM

TO: Government Operations Committee
FROM: Tanya Emery, Director of C&ED
DATE: January 26, 2015

Multifamily Inspection Program

In an effort to improve the quality of rental housing in Bangor, staff have been working on ideas for inspection of housing in the City. A previous proposal brought to you would have inspected only the units rented using General Assistance funds. That approach was determined to be problematic for a number of reasons. Therefore several City departments are currently working together on a cooperative program to inspect multifamily buildings for basic housing quality and life safety issues. With committee approval of this change in course, we will continue full development of the programmatic elements and bring a final plan for your review and approval.
