

**Request for Bids
Capehart Phase II: CB Inserts/Structural BMPs
Bid No.: B16-003
Issue Date: July 21, 2015**

Addendum No. 1

The following question was submitted regarding Section IV. Requirements. The City's responses to the question is in *Italics*.

- 1. Q: Will the City be designating a specific "Compact Biofilter/Bioretenion System" for this project?

A: The bidders will be designating specs and designs for the compact biofilters/bioretenion systems.

- 2. Q: Does the City have the current pollutant levels for the waterway?

A: The City does not have current pollutant levels for the waterway but have asked bidders to propose systems that can remove sediment, nutrients, metals, and oils and greases.

- 3. Q: Does the City have flow data for the separator row system?

A: The City does not have flow data for the separator systems as the bidder is to propose the system they are planning to provide.

- 4. Q: Does the City have a designated space for the basins and bioretention systems?

A: The City does not have designated locations for the basins and biofilters. The winning bidder will conduct a survey of the watershed and make recommendations.

All other terms, conditions and specifications remain the same.
