- a. Siphon Cleaning – WWTP – Environmental Services, Inc - \$47,750

Finance Director Cyr said that the City has eight double barrel siphons that need to be cleaned out periodically. There are currently two showing signs of issues and would like to get them repaired as soon as possible.

Cyr recommended awarding this quote to E.S.I. of New Hampshire in the amount of \$47,750 which includes assessing the conditions as well as cleaning of the siphons.

Gallant moved staff recommendation, it was seconded by Sprague and approved.

Meeting adjourned at 5:15 p.m.
