PERIODICALLY AS THIS PAGE WILL HAVE UP-TO-DATE
INFORMATION.**

Program Background

The City of Bangor has established a Façade Improvement Program to improve the façades of commercial and mixed used properties in low-to-moderate-income neighborhoods throughout the City. Please see the attached map for eligible areas.

The Program offers grant funds that will double the eligible private investment up to \$7,500 (maximum grant amount is \$15,000) for the purpose of restoring/renovating commercial storefronts and replacing deteriorated or poor-quality commercial signs and awnings. A Façade Improvement Grant (façade grant) may be used for a variety of façade improvements including, but not limited to, painting, window or door repairs/replacements, signage, awnings, storefront restorations and other activities outlined under pages four and five.

A pre-submission consultation is recommended. Please contact Tyler Collins at 992-4280 to set up an appointment if interested.

Specific objectives of the City of Bangor Façade Grant Program include:

- Encourage private investment in the Downtown;
- Enhance the appearance of the streetscape;
- Reduce vacancies in storefronts and upper floors;
- Expand worker and shopper populations;
- Strengthen or restore the original character of historic buildings;
- Provide a catalyst for others to improve their buildings, signs and awnings.

We anticipate that the demand will exceed our available funding. It is likely that not all requests will be granted, or some may not be funded in the full amount. The City of Bangor will evaluate applications to determine eligibility and, based on a set of criteria (see page 10), make grant awards to those proposed projects that are determined will have the greatest impact on enhancing the neighborhood where they are located.

Funding and Administration

The Façade Improvement Program is funded through the City of Bangor's Community Development Block Grant Program, through funding from the Department of Housing and Urban Development (HUD). Grants will be available that will double private investment up to \$7,500 (not to exceed \$15,000). Program administration will be carried out by City of Bangor Community and Economic Development Staff according to established guidelines and procedures. The administration, operation and use of funds of the Program shall conform to all federal, state and local laws, regulations and codes.

Program Guidelines and Eligibility

1. Only work on the exterior of buildings that is visible from the primary means of travel at street level is eligible under this program.
2. Grant funds will be awarded on a competitive basis.
3. Grants will be available for a maximum of \$15,000 and will require at least a 50% match (cash only).
4. Each applicant/owner may only be awarded one grant per grant period but can apply for any subsequent grant round. For each applicant, all past façade grants awards must be closed out before a new grant will be awarded.
5. The property owner must sign the grant application. Business owners leasing or renting space are encouraged to work with their building owner to develop an application.
6. A façade grant will only be made to a commercial or mixed-use property. If façade grant funding is utilized, the building must remain commercial or mixed-use for at least five years following completion of the project. Please note that properties are eligible for grant funding regardless of whether the building is presently occupied or vacant. Regarding rental properties for the purposes of this program: residential is defined as all single-family homes and one to four-unit rental residences – these properties are not eligible for this funding. A commercial property is anything with five or more units and these properties can be eligible.
7. Building projects should be designed by a qualified design professional. A professional sign and/or awning maker must produce any signs and awnings.
8. Applicant must obtain all necessary approvals and/or permits from the City of Bangor. No façade grant shall be made unless and until the proposed work has been reviewed and approved by City staff and the appropriate review committees.
9. The project applicant or lessee must owe no outstanding property taxes, fees, judgments, or liens to the City of Bangor and have no outstanding code violations.

10. Each awarded project is allowed a maximum of two drawdowns.

Eligible Activities

Eligible uses of façade grant funds are improvements to the exteriors of existing buildings located in the eligible areas, subject to review and approval. Such improvements include:

- a. The repair, cleaning and/or painting of all surfaces of exterior walls that are visible from a major travel way.
- b. The repair of deteriorated architectural features where possible or replacement only if necessary.
- c. Handicapped accessibility.
- d. Removal of all extraneous elements on exterior walls such as empty electrical boxes, conduits, pipes, unused sign brackets, etc.
- e. Repair or replacement of deteriorated gutters, rainwater leaders, and downspouts.
- f. Removal of existing façades that are inappropriate and incompatible with the existing structure or neighboring properties and replacement of the same with such appropriate and compatible façades as approved by the City.
- g. Repair or replacement of doors and windows where appropriate because of their deteriorated condition or to increase the efficient use of energy in the building.
- h. Repair, removal or replacement of exterior hardware and lighting fixtures.
- i. Repair or replacement of soft awnings.
- j. Removal, repair or replacement of exterior signs.
- k. Removal of exterior appurtenances or accessory structures which serve no useful purpose or those in a deteriorated condition which are not economically repairable.
- l. Building permits and related fees.

Ineligible Activities

Improvements/expenses that are not eligible with this funding source include but are not limited to:

- a. Any new construction.
- b. Interior renovations.
- c. Costs associated with security systems, solar systems, or satellite dishes
- d. Purchase of property / equipment
- e. Decorative fencing
- f. Roof repairs (unless immediately integral to the exterior façade improvement)
- g. Sidewalks
- h. Project improvements commenced prior to the receipt of a signed Notice to Proceed from the City

Design Guidelines

1. All planned improvements on properties that are located in the Downtown Revitalization District, must comply with Chapter 71 (the “Bangor Center Revitalization Area Ordinance) and Chapter 148 (the “Historic Preservation Ordinance) of the [Code of the City of Bangor](#) where required and appropriate. Planned improvements must preserve the architectural integrity of the building and adhere, where possible, to the original design of the façade. If an application is successful and the property is in the Historic Preservation District, applicant is required to consult with the Historic Preservation Committee (HPC - <https://www.bangormaine.gov/content/1538/1415/1431/default.aspx>) Email planning@bangormaine.gov with any questions regarding HPC. Receiving Façade Grant funding is contingent upon HPC approval.

2. Only appropriate means of cleaning buildings will receive funding. Sandblasting of historic buildings is inappropriate due to its destructive nature.
3. Vinyl and aluminum siding are inappropriate materials for covering historic structures and the use of those and similarly inappropriate façade coverings will not be funded. Please consult with
4. Applicants undertaking façade improvement projects on historic, or potentially historic properties, should consider the types of materials and design elements that would have been used in the late 1800's and early 1900's. All projects that are located in the City of Bangor's designated Historic District or that have a local or national historic designation will need to go before the City's Historic Preservation Committee. All projects will be submitted to the Maine State Historic Preservation Officials for review.
5. Paint colors should be harmonious with neighboring structures and/or indicative of the building's historic color.
6. The size, color, shape and position of any proposed sign should complement the architecture and history of the building. Plastic, neon, and backlit signs are generally discouraged. Signs must also comply with the [Code of the City of Bangor Sign Ordinance](#); Chapter 260, Section 8 "Downtown Development and Waterfront District".
7. Awnings should be of canvas or acrylic material (if deemed appropriate to the character of the building), designed to respect the building's proportions, and in colors that complement the color of the façade as well as neighboring awnings and façades.
8. Improvements should develop compatibility within the building and with neighboring properties without sacrificing the uniqueness of Downtown Bangor. Consider the proportions, width, height, and setbacks of the building in relation to adjoining and surrounding buildings. Maintain the alignment of façade s along the sidewalk and the rhythm of windows and storefronts.

Local Requirements

1. The awardee must agree to follow the procedures and conditions of all established and applicable municipal ordinances in the rehabilitation of building exterior, completion of improvements and in future maintenance of the improved property. The awardee also must comply with all federal requirements as contained in the program guidelines.
2. The applicant will provide each contractor with the same bid documents and shall secure at least three (3) valid and recent (within 30 calendar days) professional quotes for each specific work task requiring the services of a contractor or sub-contractor. Standardized

forms for bid proposals must be utilized and are provided (starting on page 6) in the application form found on the City website. The applicant is solely responsible to invite and accept or reject any bid proposal. The applicant is not required to select from the qualified contractor list provided. However, no person or entity appearing on the current Department of Housing and Urban Development consolidated list of debarred, suspended or ineligible contractors may perform any work or receive any payment in conjunction with a building façade grant.

3. No member of the Bangor City Council or other public official who exercises any functions or responsibilities with respect to the Community Development Program shall have any interest, direct or indirect in any contract or subcontract, or the proceeds thereof, for work performed in connection with a building façade grant.
4. Applicant must select the contractor with the lowest bid. If the low bid is not accepted for a particular work component, the applicant must pay the difference between the chosen bid and low bid and provide justification as to why a higher bidder was selected. The City will make the determination whether this justification is valid.
5. Any contractor chosen must provide all necessary expertise, equipment, materials and insurance to satisfactorily complete the respective task.
6. Bid proposals may be secured from and awarded to a member of the borrower's family if the bidder (i.e. relative):
 - a) is a bona fide and skilled tradesman;
 - b) is not living in the same household as the borrower;
 - c) has no direct or indirect financial interest in the property to be rehabilitated; and
 - d) The relationship is disclosed in writing by the applicant at the time of bid proposal.

The applicant may assume any or all contractor responsibilities if she/he can provide all necessary expertise, equipment, and materials to complete the respective task. The applicant, however, may not receive any payment for his/her personal expertise and/or labor.

7. No member of the borrower's extended family will be reimbursed with Façade Improvement Grant funds for unskilled labor provided. In all cases, the borrower is responsible to satisfy the program's procedures to obtain grant disbursement.
8. Applicant must agree to permit reasonable inspection, during normal business hours, by representatives of the City, to the property, exterior rehabilitation/improvement work, and all contract agreements, materials, equipment, payrolls, and conditions of employment pertaining to the work.
9. At the time of the application submission, the applicant must provide documentation of matching funds.

10. Disbursement of Façade Improvement Grant funds is contingent upon the completion of approved exterior rehabilitation/improvements according to applicable municipal codes and ordinances as verified by the inspection of the City of Bangor. No money will be disbursed to reimburse the applicant for exterior rehabilitation/improvements made to the property which were not approved by the City before they were commenced.
11. Any Façade Improvement funds not expended upon completion of the original and approved exterior rehabilitation/improvement work will be forfeited.

Federal Requirements

The awardee must agree to abide by all terms and conditions of Federal Regulations governing the use of CDBG funds, including but not limited to:

1. Applicant must abide by Federal Labor Standards established minimum wage rates (Davis-Bacon Act as supplemented by Department of Labor regulations) for all construction contracts awarded in excess of \$2,000. **It is the applicant's responsibility to notify contractors upfront, as this will affect pricing.** Please see the Wage Determination section. The wages provided in the attached section are the minimum salaries that can be paid to the contractor's employees (rates plus fringe). Applicants must work with contractors to identify job classifications and contractors who are bidding on the projects must be aware that these figures are valid and may affect the bid amount.
2. Any grants made by the City of Bangor for façade rehabilitation shall be made subject to the provisions for the elimination of lead-based paint hazards.
3. The awardee must comply with the Provisions of Training, Employment and Business Opportunities, "Section 3". Section 3 of the Housing and Urban Development Act of 1968 [12 U.S.C. 1701u and 24 CFR Part 135] is HUD's legislative directive for providing preference to low- and very low-income residents of the local community (regardless of race or gender), and the businesses that substantially employ these persons, for new employment, training, and contracting opportunities resulting from HUD-funded projects.
4. Façade grant recipients who own historic buildings must have their scope of work be reviewed and approved by the Maine Historic Preservation Commission (MHPC) pursuant to Section 106 of the National Historic Preservation Act as well as the Historic Preservation Commission if required by City Code.
5. If the property to be improved is located in a designated flood hazard area, the applicant is required to carry flood plain insurance and abide by the regulations of the Flood Disaster Protection Act of 1973.

6. All properties receiving façade funding must have an environmental review conducted to ensure that the proposed project does not negatively impact the surrounding environment and that the property site itself is safe for development. Not every project is subject to a full environmental review (i.e., every project's environmental impact must be examined, but the extent of this examination varies), but every project must be in compliance with the National Environmental Protection Act (NEPA), and other related Federal and state environmental laws. City staff will coordinate the environmental reviews and there is no fee.
7. Civil Rights Act of 1964; Applicant must not discriminate upon the basis of race, color, creed, or national origin in the sale, lease, rental or occupancy of an improved property.
8. No member of, or Delegate to, the Congress of the United States, no resident Commissioner, shall be admitted to any share or part of this Agreement or to any benefit to arise from the same.
9. No member, officer or employee of the City's Department of Community and Economic Development or its agents or assignees, no municipal officers of the City, and no other member of any board or commission, elected or appointed official of Bangor or employee of the City of Bangor who exercises any decision making functions or responsibilities respecting the Community Development Program shall have any direct or indirect pecuniary interest as that term is defined by 30 M.R.S.A., Section 2250 et seq. in any contract or subcontract, or the proceeds thereof for work to be performed in connection with the program assisted under this agreement.
10. An applicant cannot pay any bonus, commission, or fee for the purpose of obtaining the City of Bangor's approval of the grant application, or any other approval of concurrence required by the City of Bangor or its designee to complete the rehabilitation work, financed in whole or in part with the rehabilitation grant.

Application Process and Timeline

1. To apply for a Façade Improvement Grant, fill out the Façade Grant Application form and return it to the City of Bangor Office of Community & Economic Development by Tuesday, June 30, 2020 at 1pm.
2. Applications will be considered only if they are filled out completely and include the following:
 - a. Full description of the project

- b. Explanation of the specific proposed storefront improvements that will be restored, rehabilitated, modified, and/or replaced
 - c. Detailed and colored photographs of the storefront in its current condition and at least one showing the entire building along with adjacent buildings
 - d. A preliminary sketch of the proposed improvements would be beneficial but is not required
3. City staff will review and score applications for compliance; awards are expected to be made within two weeks of the deadline.
4. Successful applicants may begin improvements only after receiving official grant award notification, CDBG/SHPO environmental clearance, Historic Preservation approval and signed notice to proceed. No work/ improvements begun prior to signed notice to proceed (including materials ordered, preparation work, etc.) will be eligible for reimbursement or can be counted as project match.
5. The amount of grant fund reimbursement shall be double the private investment up to \$7,500 - the City of Bangor Façade Improvement Grant will not exceed \$15,000. The City will only pay its portion of the project costs once the building owner has paid its entire portion of the project costs.
6. Upon completion of a Façade Improvement Grant project, or at the time when a draw-down is requested, the business/property owner shall submit invoices and proof of payment for the work to the City of Bangor. The City will then perform an inspection to determine that the work was completed in accordance with the original grant application and cost estimates. Each project is allowed a maximum of two drawdowns.
7. Upon a satisfactory inspection, the reimbursement will be approved and processed within 30 days.

Selection Criteria

1. Applicants **MUST** submit the attached Façade Grant Application Form and required attachments (in color) found in the previous section (starting on page nine). *Incomplete applications will not be scored*; Applicants **MUST** agree to comply with the Required

Design Guidelines in on page 5. Proposed improvements that do not comply with these guidelines are not eligible for grant funding.

2. Each Façade Improvement Grant application will be evaluated based on the following criteria:

- Compliance with design guidelines, eligible activities, and City of Bangor codes;
- Improvement to the visual appeal of the building and appearance/attractiveness of the streetscape as a whole;
- Amount of personal investment in project and documentation of matching funds;
- Effectiveness of the long-term maintenance plan;
- Degree of restoration of the original character of historic buildings

Due to limit funding, federal regulations, and staff limitations, priority may be given to applicants that participate in a pre-application consultation, limit the number of contractors, and/or projects which have a higher ratio of private investment. Additionally, a clear and detailed application and a sketch of what the proposed improvements will look like will be very advantageous to the applicant.

The City of Bangor anticipates that there will be more demand than available funds. The City of Bangor reserves the right to deny funding to any applicant who does not comply with the design guidelines. Should there be a lack of qualified applications, all remaining grant funds may not be awarded.

Amendment

Program guidelines and eligibility may be amended upon final approval of the Bangor City Council. All amendments to program guidelines and eligibility shall be pursuant to all state and federal regulations, which may apply to activities covered by this program.

Wage Determination and Davis Bacon

Contractors must abide by the wage determination pay scale below, for each employee working at the project site. Additionally, evidence of weekly payroll forms will be required. Please review the “Making Davis Bacon Work” PDF document available at the City’s Façade Improvement Grant website: www.bangormaine.gov/facade. This document, the Making Davis Bacon Work document and pertinent Federal, State and local laws, rules and regulations should be made available to potential contractors to ensure accurate estimates are received.

"General Decision Number: ME20200017 01/03/2020

Superseded General Decision Number: ME20190017

State: Maine

Construction Type: Building

County: Penobscot County in Maine.

BUILDING CONSTRUCTION PROJECTS (does not include single family homes or apartments up to and including 4 stories).

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.80 for calendar year 2020 applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.80 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2020. If this contract is covered by the EO and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must pay workers in that classification at least the wage rate determined through the conformance process set forth in 29 CFR 5.5(a)(1)(ii) (or the EO minimum wage rate, if it is higher than the conformed wage rate). The EO minimum wage rate will be adjusted annually. Please note that this EO applies to the above-mentioned types of contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but it does not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60). Additional information on

contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

=====

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four-letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing

the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012

is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

Eligible Areas

Only properties located in a low to moderate-income neighborhood, as identified by the colored areas on the attached map are eligible for the program. The map can also be found on the City’s Façade Improvement Grant webpage.
